DIARY NOTES

DD/S

19 September 1966

25X1A

Historical Record of DD/S: [REDACTED] met with me today to discuss the means by which the history of the DD/S Offices can be compiled. He suggested a Historical Board of three to set the terms of reference for our program and to produce a narrative chronology of each Office and its principal events and activities. He suggested that this be a full-time job for a limited period of time either by retirees or near retirees so that they can do a complete job and interview people who participated in these special activities. The history should make reference to authorities and agreements under which the DD/S Offices operate. Papers can be of any classification desired.
